

HG002 Benchmark Operational Stability

Operational variability with stable downstream biological evidence organization

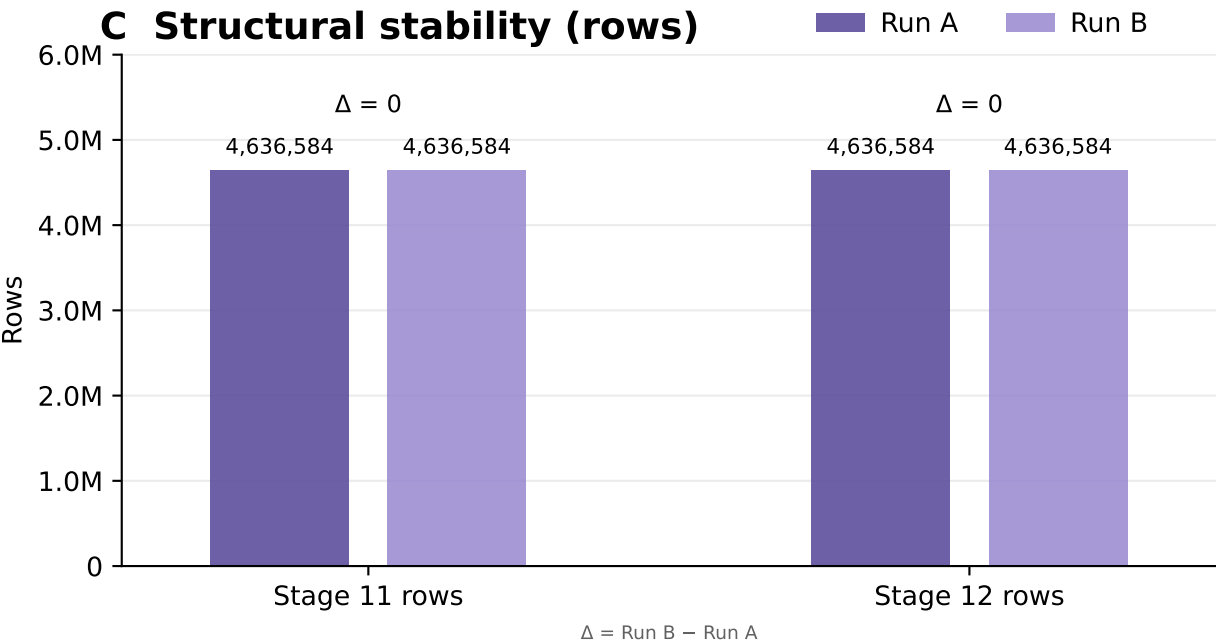

A Execution identity

Field	Value
Case	HG002
Comparison	Checkpointed vs end-to-end WGS execution
Run A	run_2026_04_17_082417
Run B	run_2026_05_13_060859
Status	reproducible

B Runtime variability

C Structural stability (rows)

D Semantic stability checklist

Evidence layer	Semantic status
Priority tiers	stable
Validation readiness	stable
Interpretation labels	stable
Gene burden	stable
