

ERR10619300 Same-Patch Operational Reproducibility

Operational variability with stable downstream biological evidence organization

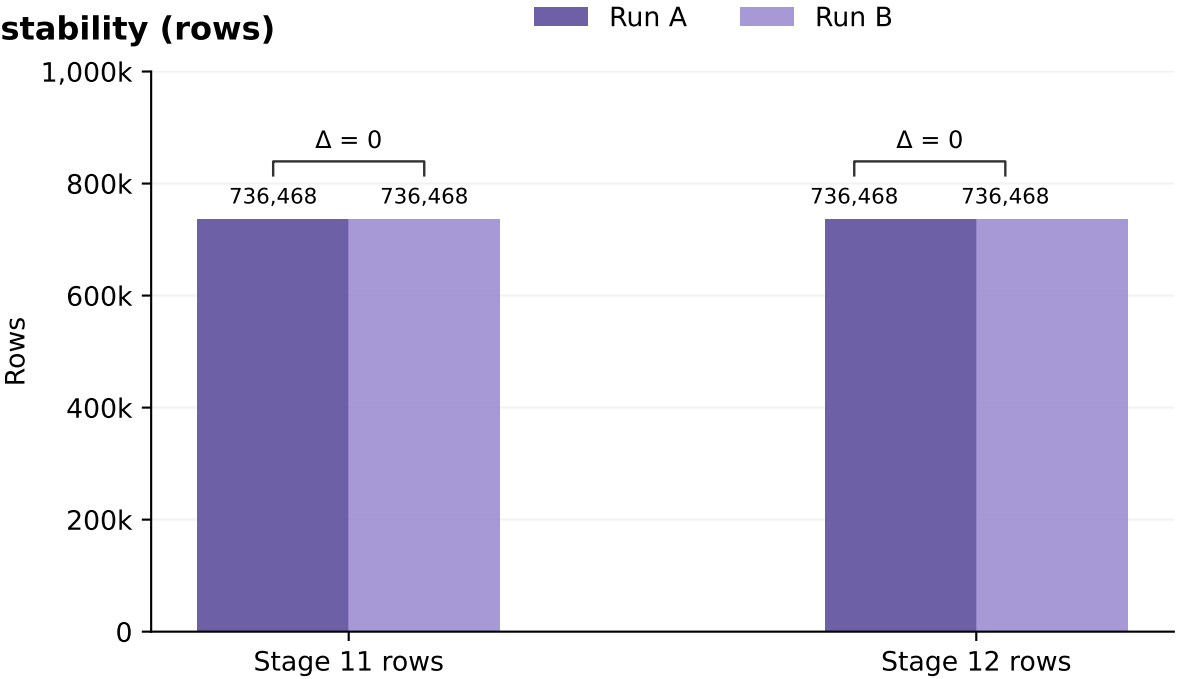

A Execution identity

Field	Value
Case	ERR10619300
Comparison	Same-patch WES rerun
Run A	run_2026_05_14_164444
Run B	run_2026_05_15_063040
Status	reproducible

B Runtime variability

C Structural stability (rows)

D Semantic stability checklist

Evidence layer	Semantic status
Priority tiers	stable
Validation readiness	stable
Interpretation labels	stable
Gene burden	stable

$\Delta = \text{Run B} - \text{Run A}$
Generated deterministically from case-study TSV artifacts. Operational reproducibility only; not clinical interpretation.
